OBJECTIVE

Ambitious, detail-oriented, and dependable Computer Applications graduate with strong academic performance and a proactive approach to technology. Possesses foundational expertise in frontend web technologies along with hands-on skills in CMS development using WordPress and E-commerce store configuration via Shopify. Seeking an entry-level Web Developer position to build highly responsive, performance-optimized websites while actively contributing to organizational growth.

TECHNICAL SKILLS

Web & CMS Development: WordPress (Theme Customization, Page Builders/Elementor, Plugin Configuration), Shopify (Store Setup, Product Mapping, Theme Adjustments, Liquid Basics)

Frontend Tech Stack: HTML5, CSS3, JavaScript (ES6+), React.JS (Learning), Responsive Web Design

Tools & Platforms: Git, GitHub, VS Code, WooCommerce Environment

AI & Productivity: Generative AI Tools, Prompt Engineering Basics, AI-assisted Code & Content Generation

Soft Skills: Problem Solving, Clear Communication, Time Management, Team Collaboration

PROJECTS

E-Commerce Store & Custom Landing Page Development	Shopify & Frontend
- Designed and configured a fully operational e-commerce store layout utilizing Shopify templates and frontend modifications (HTML, CSS, JavaScript). - Implemented mobile-friendly, modern UI components and customized interactive navigation headers to significantly boost user experience and platform responsiveness. - Managed product categorization structures, checkout flow layouts, and custom media assets within the system.	
Gemini AI Chat Integration Application	Generative AI & Web Tech
- Built an interactive custom AI chatbot application deploying secure JavaScript-based Gemini API endpoints. - Created a modern, responsive web interface ensuring clean UI layout flows and instantaneous asynchronous data loading. - Utilized advanced prompt engineering techniques to structure accurate API response flows within the frontend container.
